How to Use Our New Layout:

This year we have made a few changes to our layout in the hopes of making it easier for you to find the parts you need.

Our catalog is first split into 8 sections: **Engine, Electrical/Cab, Hitch/Front End, Hydraulic/Drivetrain, Planter, Implements, Combine** and **Skid Loader**. Each of those sections are then divided by manufacturer in alphabetical order. The different manufacturers are also color coded to help you when you are flipping through the catalog. For example in the Engine section the manufacturers in the order they appear are **Allis Chalmers, Case-IH, Ford, John Deere, Massey Ferguson, Oliver-White-Minneapolis Moline**. Items that fit multiple manufacturers, or with universal applications, are at the end of each section under the heading 'Universal'.

Make sure to check out the first page of each section to see our Featured/New Items!

We hope you like our new layout and will find it more user-friendly.

T.H.E. TOM HASSENFRTZ EQUIPMENT
COMPANY.

ALLIS CHALMERS - GLEANER
